Product Overview	86

Our equipment creates a personalized experience with exercisers.

Our people create one with you.

Delivering innovative equipment that personalizes workout experiences is key to our business. But it's just as important in our culture to listen to and develop relationships with operators.

Our people embrace the fact that we are in this together.

## Part of a Premier Global Company

Precor is a proud member of **Amer Sports Corporation**, one of the leading sporting goods companies in the world. Through continuous research and development, Amer Sports seeks to develop new and better sporting goods that appeal to consumers and its trade customers.

Its portfolio of internationally recognized brands includes Salomon®, Wilson®, Suunto, ATOMIC, Arc'teryx and Mavic®.

All the products of Amer Sport's affiliate brands are designed to improve the performance of all athletes - from beginners to professionals - to help them achieve their goals, and provide them with more enjoyment from their activity of choice.

The company's technically advanced sports equipment, footwear and apparel improve performance and increase the enjoyment of a wide range sports and outdoor activities including tennis, badminton, golf, American football, soccer, baseball, basketball, skiing, snowboarding, fitness training, cycling, running, hiking, and diving.

Our commitment to  
innovation began in 1980.

But we believe we're just  
getting started.

FOR US  
**THE WORKOUT**  
IS NEVER OVER.

PRECOR  
EFX 544

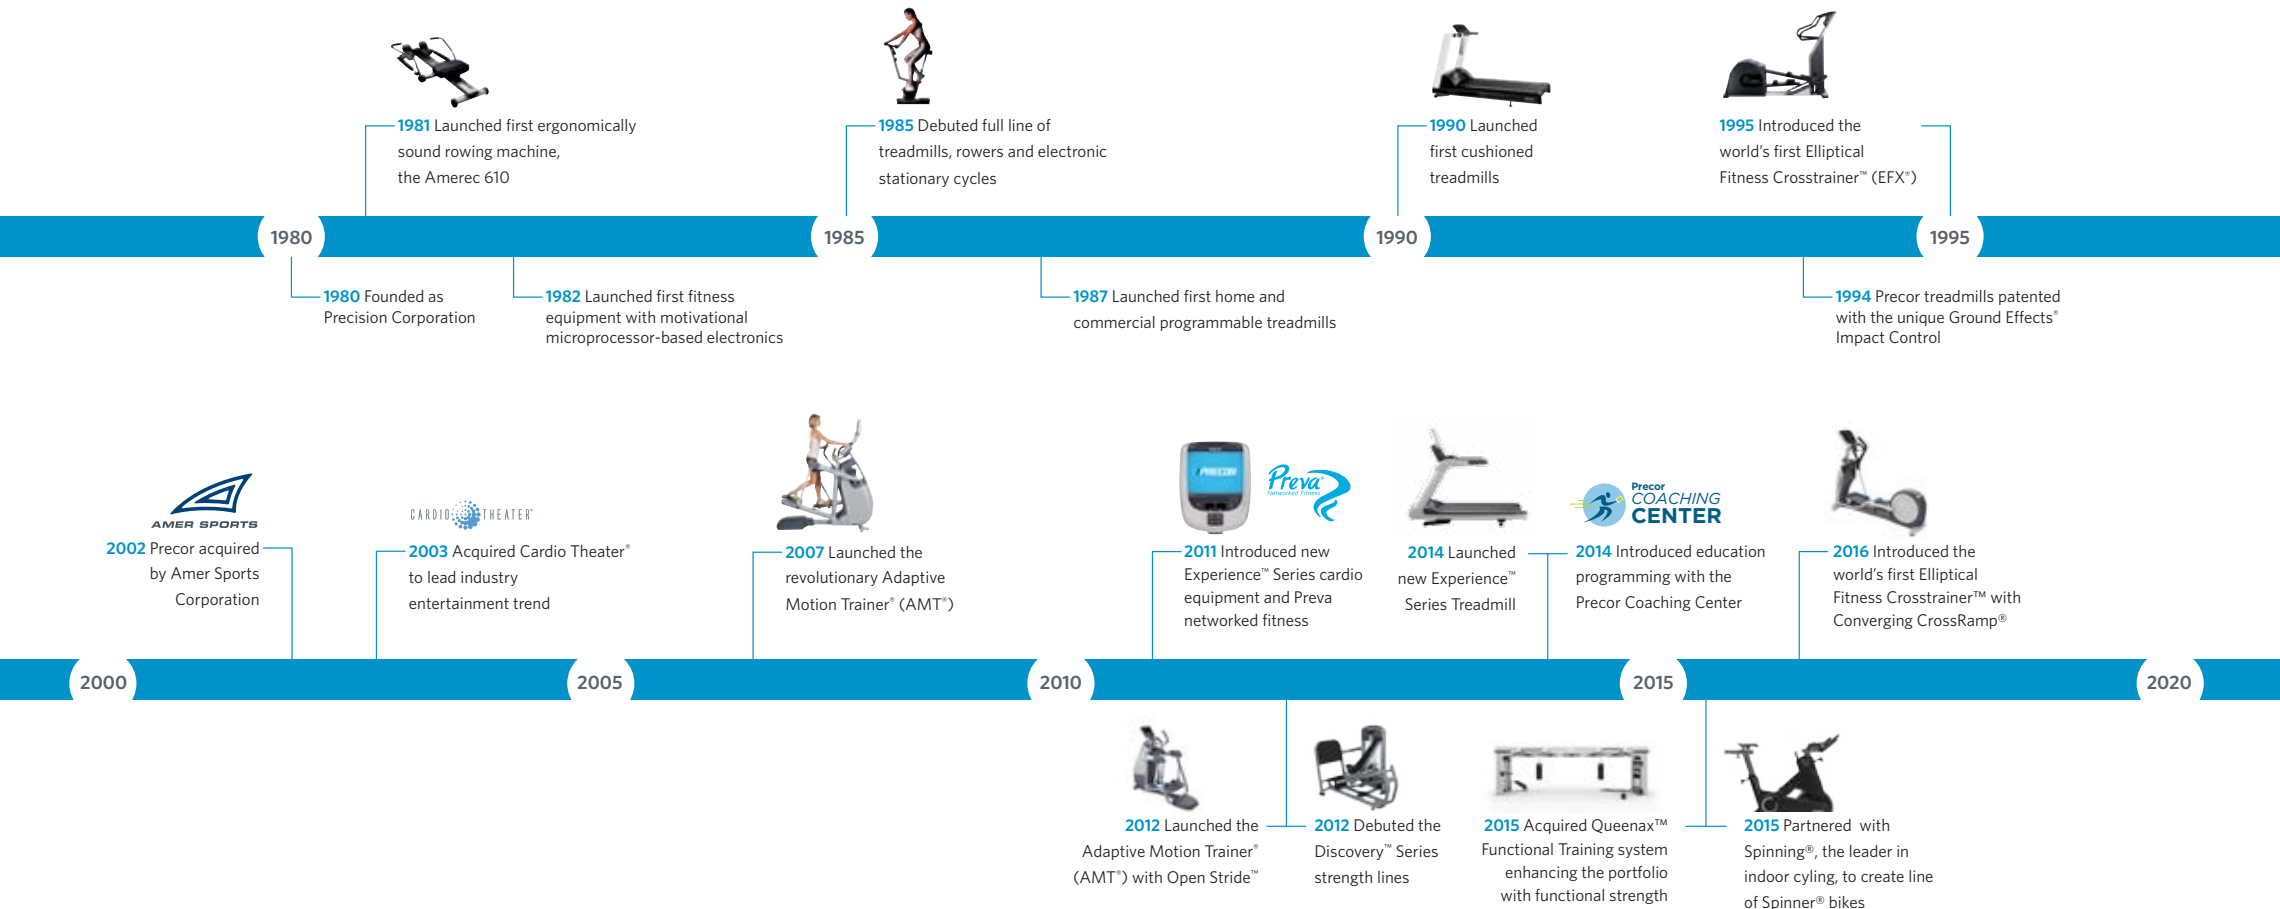

The world's first Elliptical Fitness Crosstrainer, the Precor EFX 544.

# Precor

## A proud history of innovation

Take a moment and think how far the fitness industry has come in the past 35 years. Consider all the ways it's grown and truly come into its own. Fitness is a cultural force. It's a movement – one we joined as a proud participant in 1980.

We began by launching the first ergonomically sound rowing machine, and we've been moving with the natural motion of the human body ever since. Every breakthrough product and service we've brought to the industry has always put fitness first.

We don't make Precor equipment for millions of people.

We make it for each person who uses it.

At Precor we never lose sight of the fact that individuals use our products.

Somewhere, in a health club, or exercise room at a hotel, or in their home, there is a person who is trying to get stronger, fitter and healthier.

## Designing premium fitness experiences

We develop products to meet a need. When we design something new, we make sure it's highly reliable, uncomplicated, and easy to service.

Distinctively engineered with a reputation second to none, our cardiovascular and strength equipment is truly world class. With the hallmarks of revolutionary and innovative design, every machine provides a uniquely smooth alignment of exercise with human movement.

**Greg May** VP of Engineering and Manufacturing

**Assembled in the U.S.A.**

**Strength Production Facility - Whitsett, NC**

There is one thing that goes into our equipment that no one can copy:

Our culture of supporting operators.

We believe our role is to work with operators to break down the barriers to fitness. The better we are at making exercise accessible and effective—the more lives we can change.

And healthy lives result in healthy business for us all.

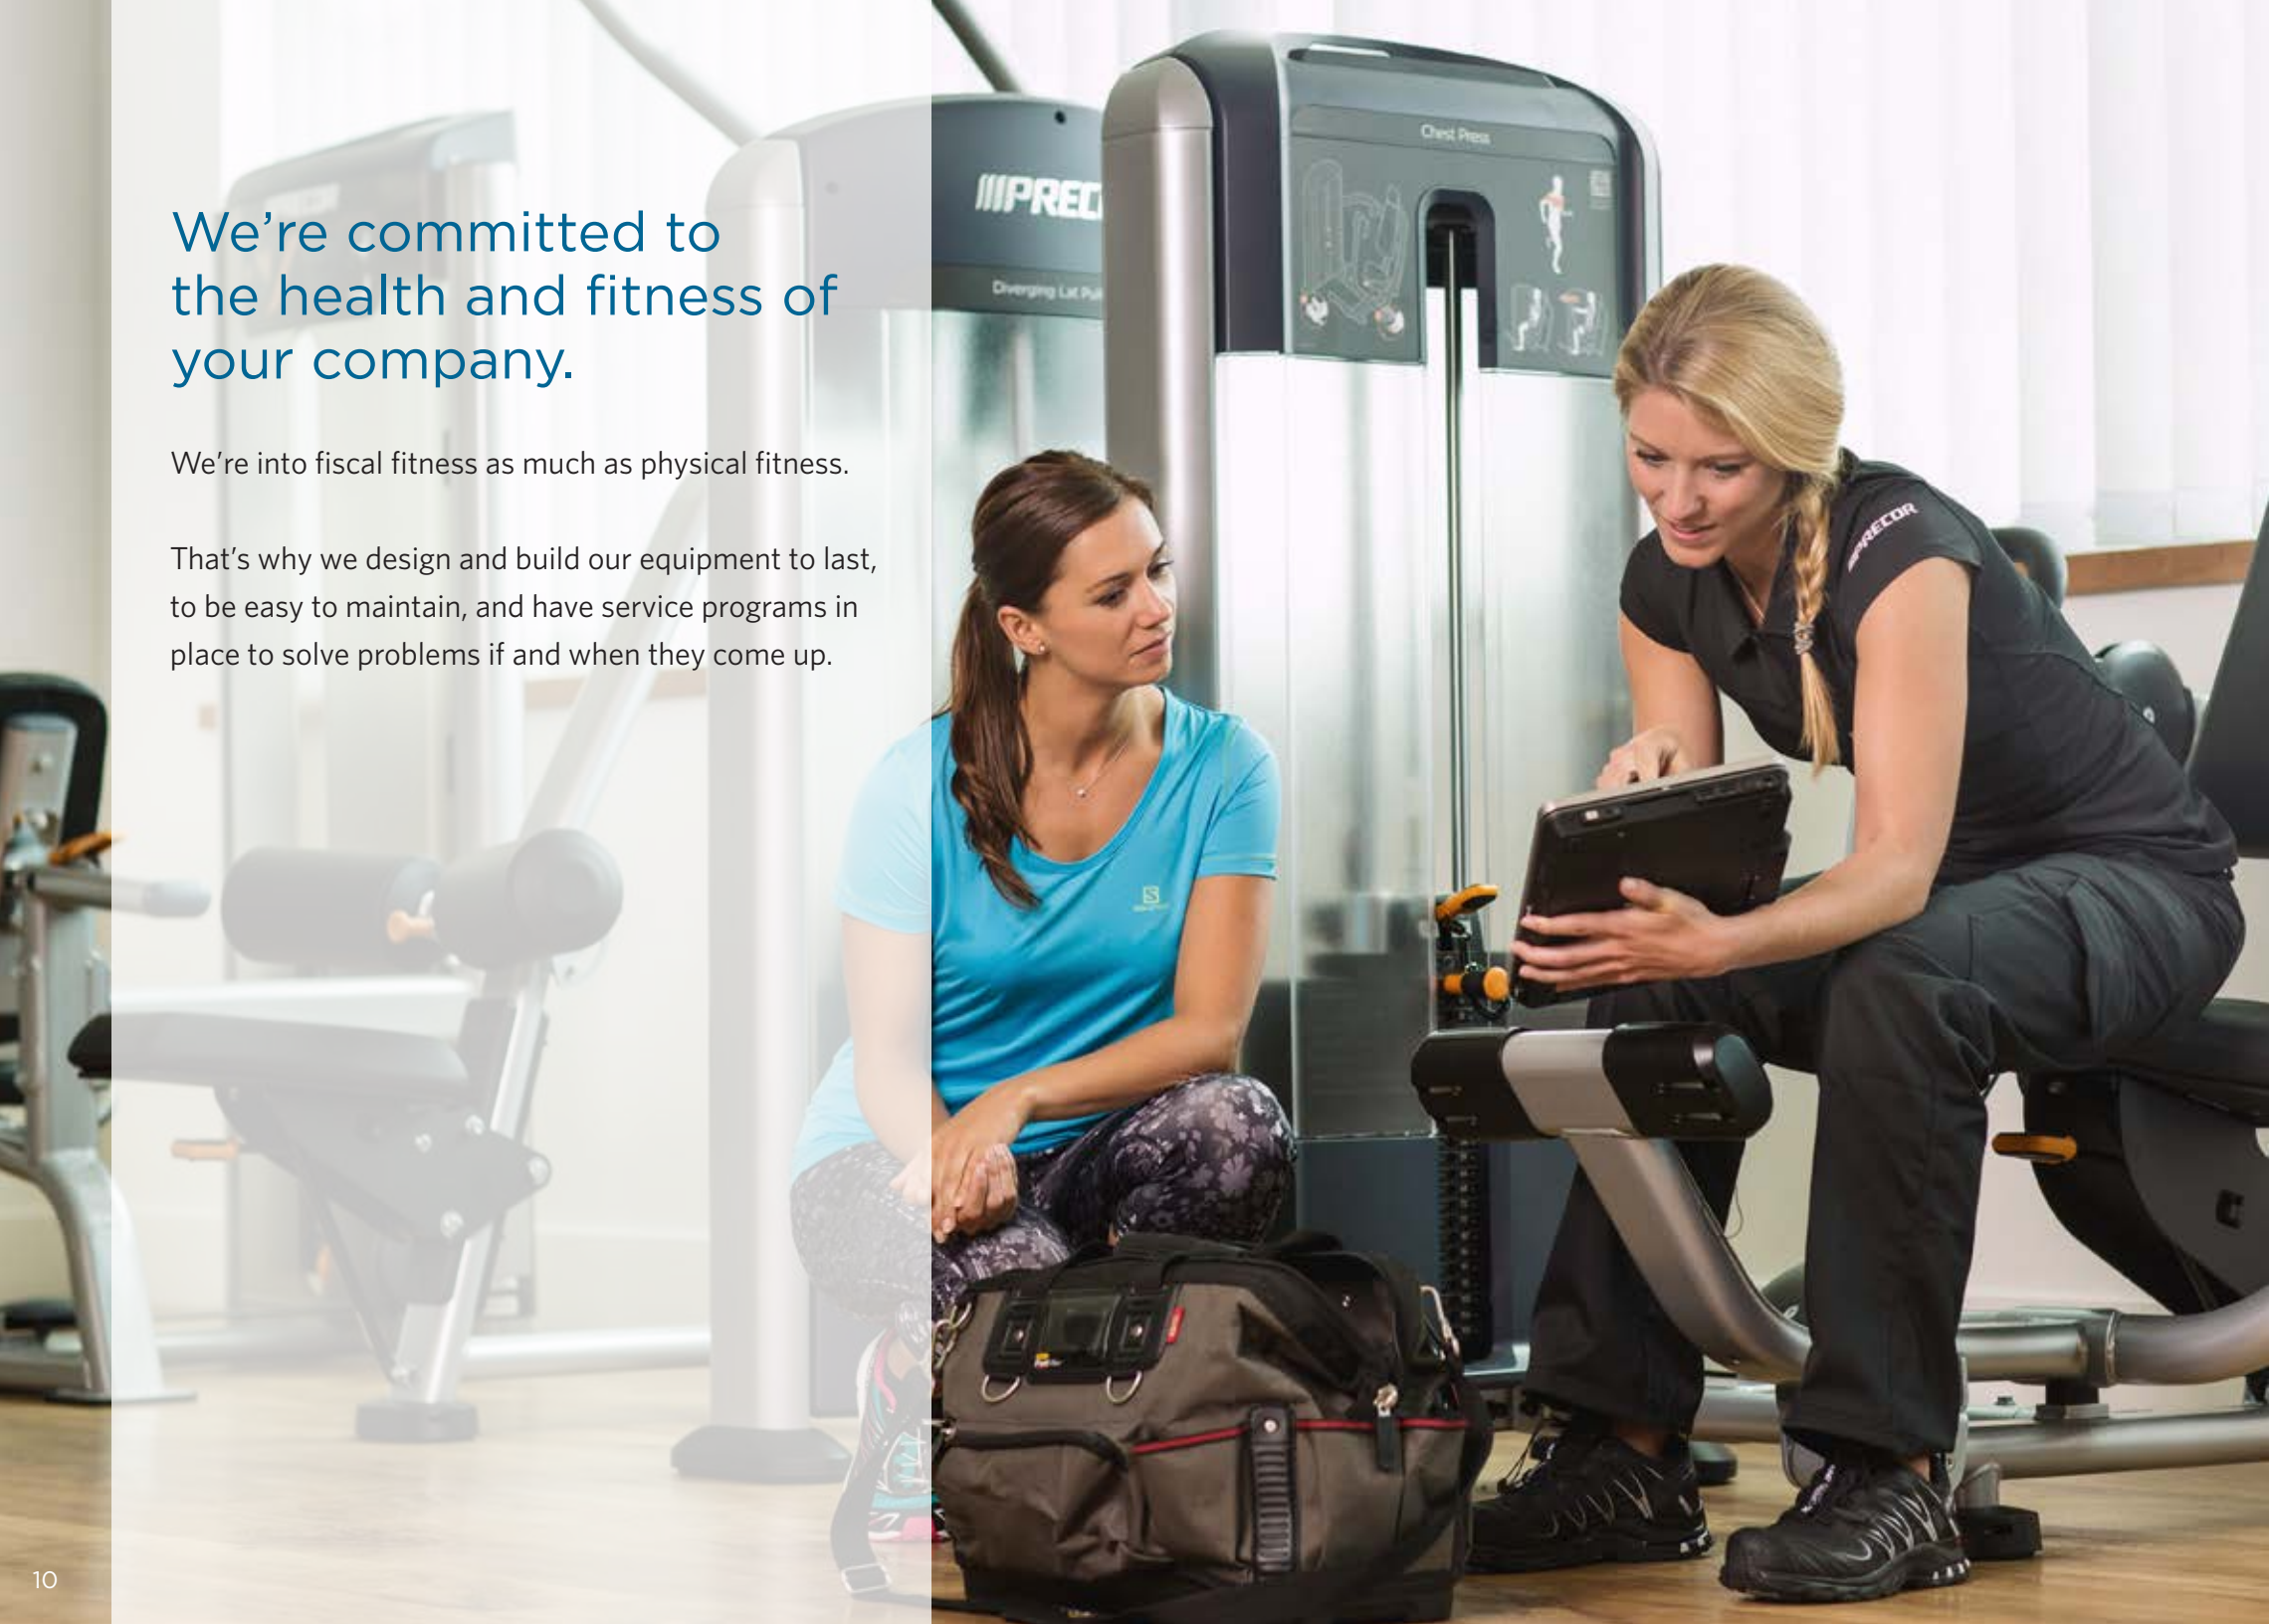

# We're committed to the health and fitness of your company.

We're into fiscal fitness as much as physical fitness.

That's why we design and build our equipment to last, to be easy to maintain, and have service programs in place to solve problems if and when they come up.

## Planning and Design

### Creating great workout environments

Our complete, customized approach to design enables you to create a totally unique fitness environment that reflects your membership profile and represents the aspirations of your business.

We offer a comprehensive design service including:

- Complete design and project management
- Visualization using 2D and 3D graphics
- Inspirational use of space and natural light
- Custom design tailored to individual requirements
- User flow and preference consideration
- Access and accessibility as defined by ADA
- Audio/Visual planning

## Financing and Leasing

### The smart way to a better deal

We realize that every business is unique. This is why we have dedicated, experienced professionals working with you and in strategic partnerships with many financial institutions, to assemble a financing/lease package that meets the needs of your business.

- We have highly knowledgeable and experienced staff to help you make the right decisions for your business.
- We can offer a variety of financing solutions.
- We are committed to providing you with a fast, efficient and enjoyable financing experience.

For more information, please contact your Precor representative or one of the team of Precor Finance/Leasing professionals. Let us help you create a financing package that works for you.

## Service and Support

### Adding predictability to your equipment ownership experience

Helping you keep your business running smoothly is a top priority for us. Our warranties and extended warranties provide comprehensive coverage from the start. Adding preventative maintenance keeps your equipment running in top shape and when your warranty expires, we offer service agreement options that keep your equipment going. Our payment programs take the surprises and guesswork out of your equipment maintenance and repair.

#### **Our service packages include:**

- Precor authorized servicers that offer proven performance.\*
- 97% of service requests are dispatched within 24 hours.
- Service rated +90% by customers over competitors.
- Our off-the-shelf parts availability is 97%.

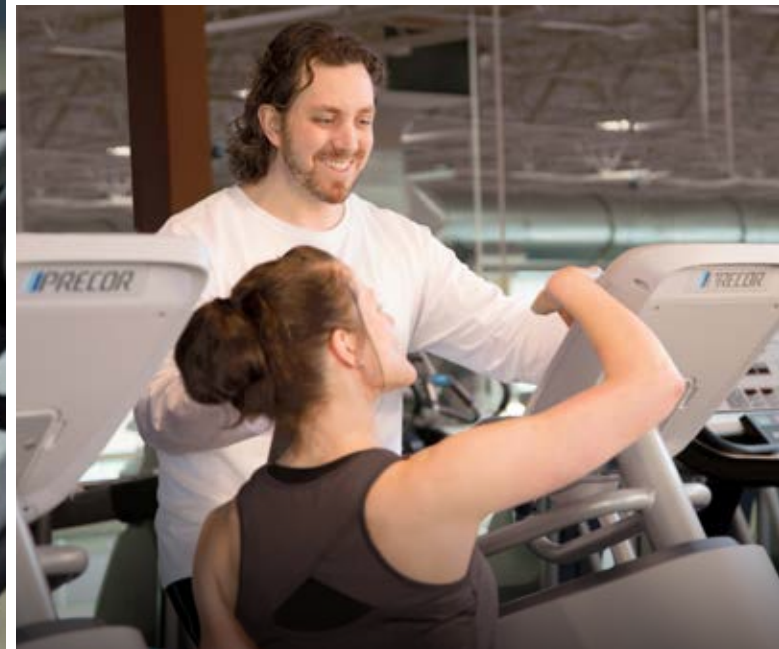

## Delivery and Installation

### Professional attention to every detail

The moment you place your order, we begin the process of making sure you're completely satisfied. From pre-install site surveys to equipment training and documentation at installation, our team provides first-class communication and attention to detail.

Our extensive network of equipment and AV installers spans the world. We provide them with ongoing service and technical training, widely recognized as the most comprehensive in the industry, so you can be assured of our high standards for a quality installation.

# Education

Check out our education and training resources at:  
[www.precor.com/coaching-center](http://www.precor.com/coaching-center)

## Precor Coaching Center

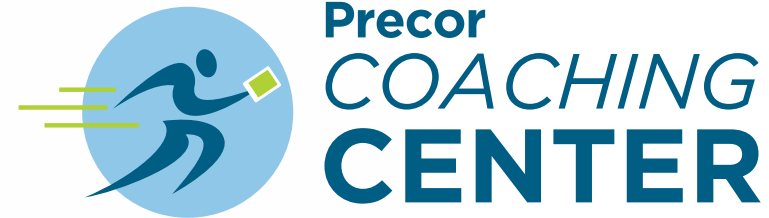

Get more out of your Precor equipment with video tutorials, downloadable workouts, online training courses and onsite workshops. Enjoy easy access to our growing library of Precor training materials that will support your trainers and motivate your exercisers.

## Our Philosophy

Our mission at the Precor Coaching Center is to help your training staff and exercisers get the most out of your Precor equipment. Whether your trainers have five minutes between clients to catch up on the latest training trends applied to Precor equipment, or you are looking for in-depth onsite training workshops to teach your staff how to drive programming on the equipment, we offer a solution.

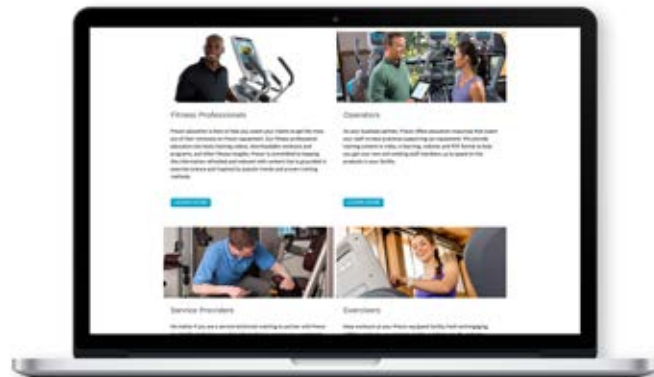

Our content is developed by industry experts and organizations, aligns with industry trends and is targeted for different types of audiences: exercisers, operators, fitness professionals and service providers.

[www.precor.com/coaching-center](http://www.precor.com/coaching-center)

# Online Education Support

The Precor Coaching Center is your one-stop shop for the latest Precor Education and Training resources. Content is divided into four categories for different audiences so you can quickly access the material that is most relevant to your training and your business. We invite you to explore our education channels that are uniquely designed to provide best-in-class proven and personalized content.

## Top Features:

- Available in 6 languages, accessible 24/7 from anywhere in the world
- Free of charge, open access content at your finger tips
- Intuitive navigation optimized for fitness professionals, operators, exercisers and service providers
- Regular content updates provided by Precor's coaching team and leading industry educators
- Content is driven by industry trends and fundamental exercise principles
- Video and PDF content is designed for the time-sensitive fitness educator

## Workouts & Training Programs

Have 3 minutes? Check out our short Trainer Tips videos that explore hot topics in the industry applied on Precor equipment. Once you watch the video, you can download the associated workout template and coaching guide to start implementing part or all of the content with your clients. Our library also features an assortment of programs available exclusively in PDF format for fast access.

# Onsite Education Support

In addition to open access content online, Precor offers onsite training workshops with our elite Master Coach team. Master Coaches travel onsite to your facility to deliver half or full day CEC-approved training workshops. Precor provides training manuals and art work for in-club marketing materials to support program launches in your facility. Operators can work with their local sales representative to purchase a training.

Check out the **Precor Coaching Center** for the latest updates on onsite training offerings.

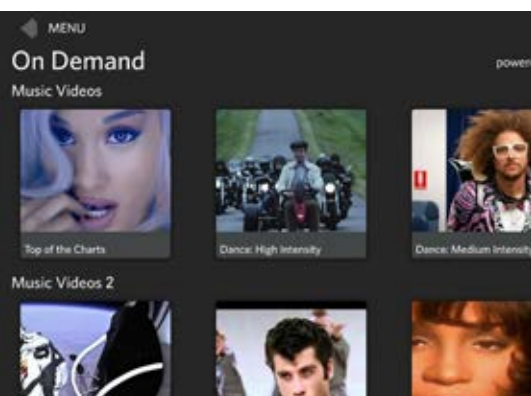

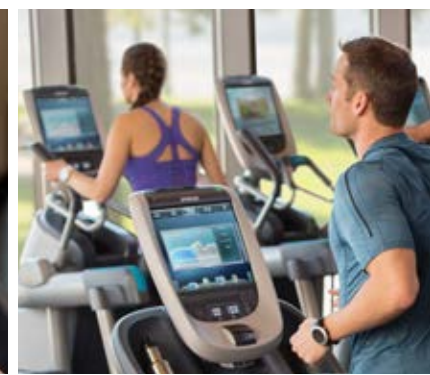

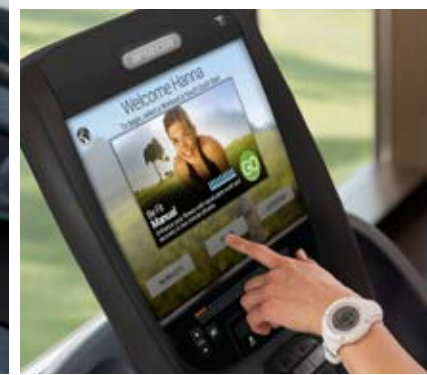

“Why” we make  
Pecor equipment  
is just as important  
as “What” we make.

Creating products that welcome all kinds  
of people is our job.

By making equipment that is a joy to use and fuels  
the desire to get fitter, we’re making tools that help  
people live the lives they desire.

# Console and Entertainment Options

In this digital world, entertainment and information are powerful tools for creating an engaging environment. Whether you're considering the Precor 880, 830, 810 or Assurance™ Series of cardio equipment, great console and entertainment options await.

# Console Options

**Four distinct cardio options, four ways of creating a cardio floor that keeps exercisers coming back again and again.**

The **Experience™ Series** features three lines of innovative and reliable cardio equipment with consoles backed by tens of thousands of hours of testing in the field to ensure proven performance that facilities can count on. The 'heads up' positioning of all the consoles ensures proper biomechanics and posture during the workout.

**The three distinct lines of the Experience™ Series include:**

**880 Line** - The P82 console seamlessly combines a fitness, television and internet experience into one simple design that attracts new members and helps to motivate existing exercisers to keep coming back to your facility.

**830 Line** - Designed to support exercisers in motion, the P30 console features a large LED display and motion controls along with mobile device charging for all mobile phones including those running Android™, Apple®, BlackBerry™ and Windows® operating systems, and small MP3 players.

**810 Line** - An essentially featured console with a streamlined display and mobile device charging for all mobile phones running Android™, Apple®, BlackBerry™ and Windows® operating systems, and small MP3 players.

**Assurance™ Series** - The essentially featured Standard Console complements the Assurance Series line of cardio equipment, to deliver exceptional value along with club level innovations, proven mechanical designs and durability.

# Entertainment Solutions

## Options for the Precor cardio lines

If you're considering the Precor 830, 810, or Assurance™ Series cardio equipment, great entertainment options await. The console in each line includes an entertainment cap for providing your members a selection of audio channels, such as those available from your mounted televisions.

You can also create an even more immersive experience by adding a Personal Viewing System (PVS) allowing members to watch video from your entertainment system, up close while they work out. Our mobile device charger also enables members to charge their phones, tablets and other devices at the same time.

<p><b>Cardio Line</b></p>	 <p>830 Line</p>	 <p>810 Line</p>	 <p>Assurance™ Series</p>
<p><b>Entertainment Cap (800/900 MHz)</b> - Conveniently integrating with the console panel, these receivers provide access to a selection of audio channels, including those from wall or ceiling-mounted displays.</p>			
<p><b>Personal Viewing System (PVS)</b> - Designed to give the user a more personal experience, with total choice and control. A PVS provides the ultimate in individual visual entertainment incorporating digital technology and an energy saving 'Auto Power Save' feature, which shuts down the screen when not in use.</p>			
<p><b>Mobile Device Charger</b> - The mobile device charger*, a standard feature, can charge all mobile phones including phones running Android™, Apple®, BlackBerry™ and Windows® operating systems, and small MP3 players. It can also provide charging to tablets and electronic book readers.</p>			

\*Not available on Assurance Series consoles.

# Networked Fitness

Networked fitness helps connect people to their fitness journey, engaging exercisers with a personalized fitness experience, both in and outside the gym. These technologies are also proven to help you to better manage your business with solutions that help drive revenue, attract members, increase retention and provide enhanced cardio asset management.

## Designed for fitness results

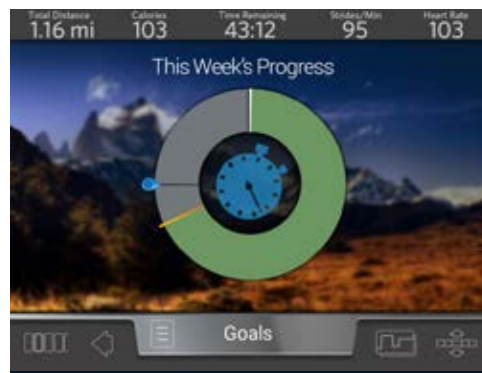

The combination of the P82 console and Preva® Networked Fitness allows you to deliver an engaging and effective fitness experience to your exercisers.

Built with the Precor 'Fitness is Foremost' philosophy, the heads-up console and the user interface focus specifically on in-motion exercisers, eliminating distractions, while keeping usability the main priority.

Console features and functionality are only accessible during a workout, keeping your equipment from becoming an internet kiosk.

The P82 console comes complete with a **workout library** of pre-programmed workouts designed for fitness goals. A daily **Featured Workout** helps to combat boredom and increase results.

Introduced in 2011, Preva is now the chosen solution for over 3,500 facilities in 72 countries.

## Proven to work for operators

Preva provides you with powerful tools that increase attraction, improve retention, drive revenue and optimize your cardio equipment management.

**Attract:** The elegant design and fitness focused features provide a 'wow' factor to new and existing exercisers.

*One club saw a 70% increase in new membership sales one month after installing Preva in their facility. Another club saw a membership increase of 35% in the first 3 months following the introduction of Preva Personal Accounts.*

**Retain:** The state-of-the-art console and features like Preva Accounts, Messaging and Exerciser Activity Reports are proven to keep members returning to your gym.

*One facility saw a 20% increase in retention over the year prior after installing Preva. Another club experienced a 25% increase in membership renewals year on year due to Preva. One operator even reported that their membership renewals were up 20% in a Preva installed club compared with a similar non-Preva installed club.*

**Earn:** Preva In-Touch is a great way to engage with your exercisers with tools like Welcome Screen messages, Workout Messages and Facility Feeds. Preva In-touch helps drive promotions and educate exercisers directly on the console.

*In a recent study, one facility increased monthly revenue by \$900 through a workout message promotion.*

**Optimize Equipment:** With Preva Business Suite, you can access real-time equipment usage insights, trends, and reports that help you make well-informed decisions around utilization, maintenance, and purchasing of equipment.

## Engages exercisers with personalized experiences

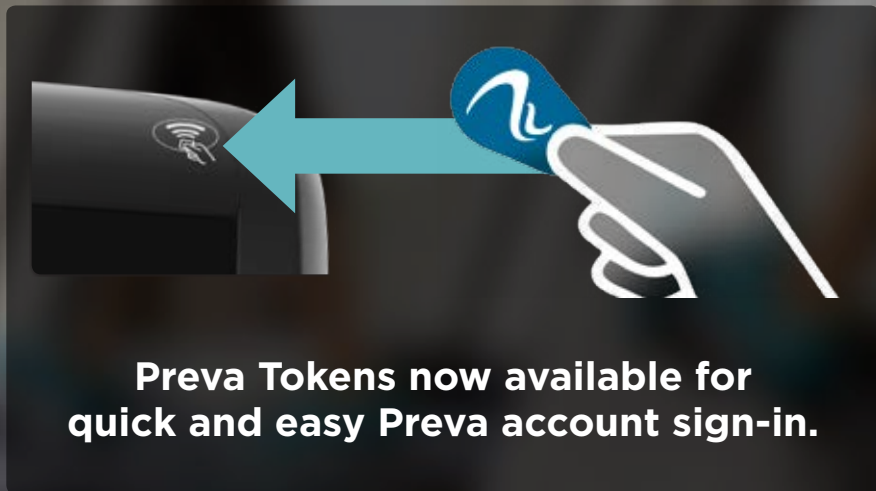

**Preva Net:** Preva Net provides in-motion exercisers with the best Internet content in a format that is extremely easy to navigate and read during workouts. Exercisers can enjoy an extensive variety of topics including: fitness and health, news, sports, technology, business and more. If you choose, you can also give exercisers fast access to a web browser.

**Personal Accounts:** Exercisers can set and track weekly workout goals, receive fun achievement badges, and save their favorite workouts for replay at another time. With **Preva Tokens** that use RFID technology, exercisers can sign into their Preva Account with a quick touch. In addition, the Exerciser Activity Report lets your staff see the activity that Preva Account holders are doing in your facility. This can aid their personal training services, help drive targeted communications as well as enabling you to set and track member exercise challenges and competitions.

*Studies show that exercisers with a Preva Account, goals, and a Preva Token workout on average four times more often than those without. In a recent survey, 75% of exercisers agreed that Preva helps them to achieve their personal goals.\**

**Video on Demand (VOD):** Exclusively from Precor, Video on Demand features easy-to-access, popular YouTube content that's been hand-selected so exercisers don't have to slow or interrupt workout time "surfing" for it. Our Curator continually refreshes the system of 36 playlists with content that works well in an exercise environment, all at no extra cost. Exercisers agree that using VOD allows them to enjoy their workout, and their gym more and that VOD encourages them to work out longer.\*\*\*

**Preva Mobile App:** Allows exercisers to access fitness history and track workouts from wherever they are, allowing you to provide value to them outside your facility. Available for both iOS and Android.

**Preva Tokens now available for quick and easy Preva account sign-in.**

\* Fitnessdk member survey in 2014    \*\* UBL Data, April, July, October 2014

\*\*\* Preva™ member surveys in U.S. February 2014 and Canada August 2014.

## Preva partnerships

With the Preva open API platform Precor is committed to maximizing your business with meaningful exerciser experiences via a partner ecosystem that features compelling solutions to improve participation, increase retention and build revenue.

Precor concentrates primarily on partnerships that are 'best in class' in the industry, which offer real value to the operator. Being part of Amer Sports enables Precor to partner with the mobile app Movescount from our affiliate brand Suunto as well as others in the fitness industry.

Movescount is an advanced tracking app which allows you to plan routes, track your moves and share these with a community of like-minded outdoor fitness enthusiasts. Pairing Movescount with a Suunto watch like the Ambit3 turns it into a multifunctional smart watch. Or simply use your smart phone for tracking. Either way, Movescount is fully integrated with Preva, allowing exercisers to capture all their activity inside and outside of the fitness facility.

# Indoor Cycling

Spinning®, the creators of group indoor cycling, and Precor, the innovators of cardio, bring you an all-new line of Spinner® bikes that will raise your Spinning® classes to a whole new level.

**SPINNER® Ride™**

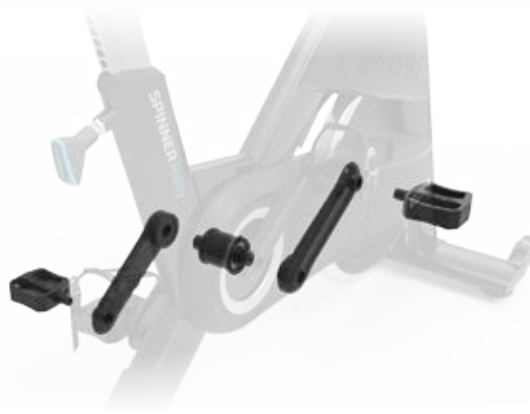

**SPINNER® Shift™**

**SPINNER® Rally™**

## Introducing the **All-New** Line of Spinner® Bikes

The creators of group indoor cycling and the innovators of cardio bring you an all-new line of Spinner® bikes that will make your Spinning® classes even better. The three new bikes feature the reliability and durability you expect from Precor, backed by more than 25 years of industry insights, education and programming from Spinning.

These bikes were engineered to deliver a personalized ride while also improving fit, feel and longevity. Give your exercisers the riding experience they've always dreamed of with equipment and programming built for long-lasting results.

## Spinner® Bikes by Precor

### Spinner® Ride™

- Dimensions (L x W x H): 58 x 20.3 x 48 in (147.3 x 51.6 x 121.9 cm)
- Overall Weight: 124 lb / 56.4 kg
- Flywheel Weight: 43 lb / 19.5 kg
- Max User Weight: 350 lb / 158.7 kg
- Frame: Alloy Steel
- Frame Color: Metallic White
- Drive Options: Chain Drive or Poly-V Belt Drive

### Spinner® Shift™

- Dimensions (L x W x H): 58 x 20.4 x 50 in (147.3 x 51.9 x 127 cm)
- Overall Weight: 140 lb / 63.5 kg
- Flywheel Weight: 43 lb / 19.5 kg
- Max User Weight: 350 lb / 158.7 kg
- Frame: Alloy Steel
- Frame Color: Charcoal
- Drive Options: Chain Drive or Poly-V Belt Drive

### Spinner® Rally™

- Dimensions (L x W x H): 58 x 20.4 x 49.5 in (147.3 x 51.9 x 125.7 cm)
- Overall Weight: 126 lb / 57.1 kg
- Flywheel Weight: 43 lb / 19.5 kg
- Max User Weight: 350 lb / 158.7 kg
- Frame: Aluminum
- Frame Color: Semi-Gloss Metallic black
- Drive Options: Chain Drive or Poly-V Belt Drive

### Spinning® Studio Console

- Optional on any Spinner® bike
- ANT+™ compatible heart rate monitor
- Readouts include:
  - Cadence (pedal RPM)
  - Heart rate/pulse
  - Time
  - Distance
  - Calories
  - Low battery indicator

Trio® Pedal

# Spinning® Education & Programming

Bring the full Spinning® experience to your gym or studio by becoming an Official Spinning® Facility. With this scalable, turn-key solution, you can take advantage of the worldwide recognition of Spinning® and introduce a consistent program experience that builds community and loyalty among instructors and exercisers alike. This will drive member retention, attraction, efficiency and additional revenue to your facility.

Use the powerful, internationally recognized Spinning® brand on your website, facility signage, class schedule and marketing materials, and get the best consultation from industry leaders to keep you ahead of the competition.

Education Options	Description
<b>Spinning® Instructor Certification</b>	Become an Official Spinning® Facility and host a training that is open to the public. Spinning will promote and market the training, while handling all the administrative efforts.
<b>Spinning® Instructor Certification - Exclusive</b>	Host an exclusive on-site training for your instructors at your facility for 6+ participants.

# Cardio Equipment

We design equipment that delivers premium, smooth-flowing personalized experiences, making it possible for more people to enjoy comfortable, engaging and effective workouts.

## Precor cardio equipment by category

**Adaptive Motion Trainers® (AMT®)** - Our Adaptive Motion Trainer with Open Stride™ is the only variable stride cardio equipment with adjustable step height allowing users to train in a variety of stride paths, including running, jogging and stepping. With one piece of equipment that creates an array of movement patterns, you can maximize valuable floor space and help members stay engaged in their workouts.

**Elliptical Fitness Crosstrainers™ (EFX®)** - Our next-generation EFX® with Converging CrossRamp® technology delivers a low-impact workout with a stride that exercisers say “feels more natural.”

**Treadmills** - Packed with innovations, our treadmill delivers optimal performance and durability for operators and unparalleled feel and quiet operation for exercisers. Equipped with an Active Status Light™, facility staff is alerted to the operating status of the treadmills at glance.

**Climber** - The ergonomic design of our climber delivers a tried-and-true, personalized and challenging workout, while optimizing space on your cardio floor.

**Bikes** - Both our upright and recumbent bikes feature great motion, biomechanically correct design that encourages proper form and appeal to a wide range of exercisers-- from the new exerciser to the seasoned athlete recovering from injury.

AMT®

EFX®

Treadmill

Climber

Upright Bike

Recumbent Bike

# Treadmills

## Personalized performance for you and your exercisers

Meet the exacting needs of your exercisers with a treadmill that is personalized to match their every step.

Thoughtful design and performance deliver an exerciser experience that feels right and keeps them coming back. Our treadmill makes it easier for you to provide a customer-focused environment. Quiet and efficient, we've streamlined the assembly and included diagnostic tools to increase uptime and keep operating costs down.

- **Active Status Light™\*** - To increase uptime, an external status light lets you and your staff know at a glance the operating condition of your treadmill and when to perform life-extending maintenance.
- **Power Factor Correction (PFC) \*** - Our highly efficient 4 HP AC motor drives are optimized with PFC for increased efficiency, improved performance, and up to 30% reduction in energy consumption.
- **Ground Effects® Impact Control System (GFX®)** - Our patented system combines ideal cushioning, support, and stability for exercisers. Our treadmill decks are designed to provide more absorption in the front where exerciser's feet hit the belt and added rigidity at the back for a firm push-off.
- **Integrated Footplant Technology™ (IFT™)** - Our unique, patented system recognizes exercisers natural foot speeds and matches every stride for an ultra-smooth feel that enhances exercisers' workout experience.

\*Not available on the Assurance™ Series treadmills.

TRM 885

See it in action at:  
[Precor.com/treadmills](https://www.precor.com/treadmills)

# Elliptical Fitness Crosstrainers™

## Natural movement, a low-impact stride motion and proven reliability

Give your members the ability to get more out of every workout while you enjoy exceptional reliability and performance. Our next-generation Elliptical Fitness Crosstrainers (EFX®) with Converging CrossRamp® provides a perfectly natural, low-impact stride, so exercisers can work out longer and harder.

As it did in 1995 when we first introduced the elliptical machine to the world, the EFX still sets the standard. In fact, the warranty claim rate of the EFX is six times less than the industry standard.

- **Converging CrossRamp®** - Users can isolate or crosstrain specific lower body muscle groups simply by adjusting the angle of the ramp, making it easier for them to focus on their individual fitness goals.
- **Natural Motion** - Our patented elliptical path perfectly mimics a natural running stride, allowing users to keep their heels down, for a more comfortable, effective and ergonomically correct motion. The redesigned ramp features a new converging foot path that more closely matches our natural gait, delivering a personalized fit and feel.
- **Lower Rate of Perceived Exertion (RPE)** - The smooth, flowing stride produces a lower RPE, making workouts actually feel easier, so users can reap the fitness rewards of exercising harder and longer.

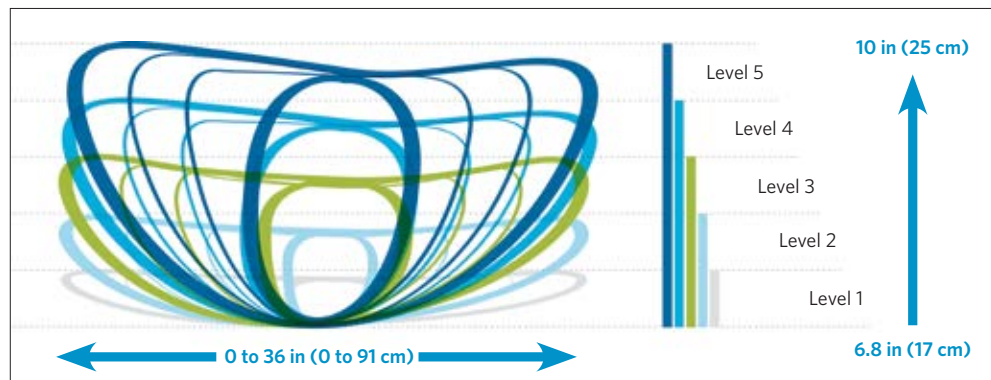

EFX 885  
with Converging CrossRamp®

# Adaptive Motion Trainer® AMT® with Open Stride™

The only cardio machine to offer adaptable stride length and adjustable stride height, delivers the most varied and highly-personalized workout experience to exercisers of all sizes and fitness levels.

- **Personalized workout** - The Open Stride feature allows exercisers to adjust their stride height from 6.8 to 10 inches as well as spontaneously change their stride length from zero to 36 inches.
- **A total body workout in one piece of equipment** - Users can go from short strides to long strides, walking to running, climbing to everything in-between, allowing them to target different muscle groups. Pushing and pulling the moving handlebars will engage the upper body, resulting in a total body workout.
- **Burn more with more enjoyment** - The AMT with Open Stride delivers a higher level of caloric burn while giving users a lower level of perceived exertion. So they can go longer and harder - and get better results.

The StrideGuide™: Illustrates the ratio of stride length to stride height as shown in this diagram.

AMT 885 with Open Stride

## They all want a different workout. Give it to them with the AMT.

- **Broad Appeal** – User-defined adaptive motion, a variety of stride lengths and low impact make the perfect workout possible for a wide variety of users.
- **Better Results** – Research proves the AMT elicits high levels of oxygen consumption and energy expenditure, allowing users to take their cardio fitness to a higher level.\*
- **Infinite variety of motion paths** – The AMT redefined elliptical exercise. Exercisers can change the length of their stride to create a whole new feeling for a workout.

**Climber:** Similar to stair climbing, this exercises all leg muscles, especially the glutes, hip flexors, and calves.

**Elliptical:** Like a jogging motion-- really pushes the hamstrings and glutes.

**Bike:** Similar to motion of cycling and great for working calves and quads.

**Treadmill:** Similar to running, for total body engagement, but without the impact.

\*Exercise Modality Comparison of Seven Exercise Modes. Len Kravitz, Ph.D., University of New Mexico, USA.

## Bikes

# A comfortable ride for your workout

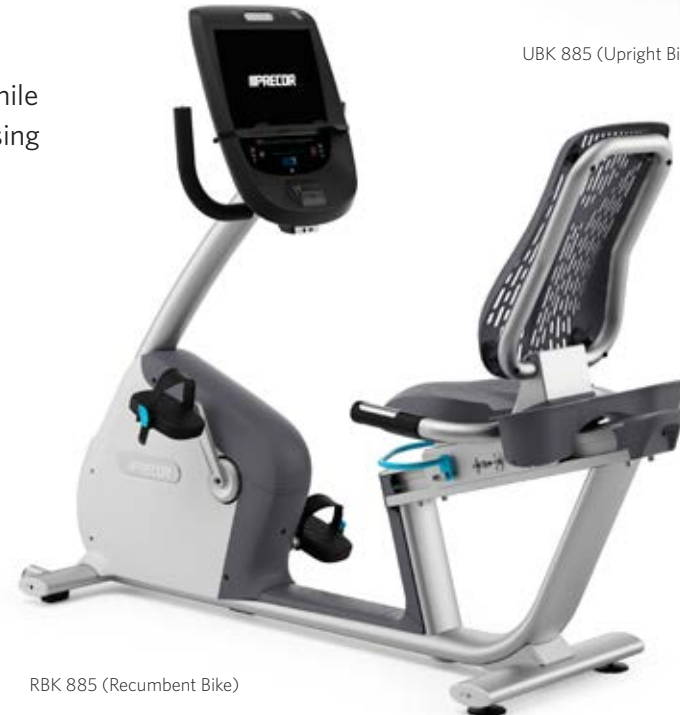

Give users the comfort they need to get the most out of every ride. Our bikes feature highly ergonomic designs to encourage proper form, along with a number of innovations to maximize comfort and ease-of-use.

Users will enjoy efficient, smooth pedaling with biomechanically correct Knee Over Pedal Spindle (KOPS) geometry and extra-wide, dual-sided pedals. They will also appreciate the simple, one-handed seat adjustment and the accessibility of the console and accessories holder, allowing them to maintain form and stay focused on their workout.

- **Ultra Comfortable Recumbent Seat Back** - Custom-designed air flex seat, featuring a ventilated panel and unique suspension system for a cool, cushioned ride.
- **Ergonomic Upright Handlebars** - Over-molded style adds comfort and durability while offering dual heart rate contacts and three ergonomic riding positions: upright, cruising and road.
- **Convenient Maintenance Access** - Both styles of bike allow for easy access to the belt-drive system with easily removable shroud that comes off with the cranks and pedals still in place.
- **2-Stage Belt-Drive System** - Yields a very low start resistance and smooth, consistent changes of resistance levels.

UBK 885 (Upright Bike)

RBK 885 (Recumbent Bike)

## Climber

### Natural motion with superior feel

Our ergonomically designed climber encourages proper posture and technique to keep motion fluid and comfortable. Using the same generator as our EFX® line, it delivers smooth, quiet movement.

- **Low-maintenance design and durability**

With low-maintenance design and extreme durability, the CLM 835 climber uses the same low-friction, self-powered generator system as the Precor Elliptical Fitness Crosstrainers™. All this adds up to a smooth feel and quiet movement for users.

- **6-Phase Generator**

The durable 6-phase generator system has no contacting parts, providing smooth, durable operation. Thirty-one climbing speed levels range from 30 to 180 steps-per-minute in 5 steps-per-minute increments to allow the user to tailor workouts to their fitness level.

CLM 835

## StretchTrainer™

### A proper warm-up and cool-down

Stretching is an important component in a proper warm-up and cool-down at the start and end of each workout. The StretchTrainer™ 240i enables users to prepare their bodies for a stronger and more satisfying workout and helps to prevent injury during and after exercise.

240i

Reading rack accessory attaches easily to the P82 console

## Experience™ Series 880 Line

Add another highlight to the facility tour – your cardio floor, featuring the new Experience™ Series cardio equipment from Precor. From first glance to deeper inspection, the Experience Series 880 Line makes quite an impression. With a touchscreen console and a simple, intuitive interface, it draws members deeper into their workout.

Available exclusively on the 880 line, Preva®, the industry leader in networked fitness solutions, will forever change the way your members work out. You'll provide your exercisers with a personalized fitness experience that engages them with the best of internet content, and motivates them with fitness tracking to reach their goals.

**Capacitive touch screen** – A touch screen design experience that rivals the best personal electronics. Users will enjoy controlling their workout via screen gestures on a robust, responsive and intuitive industrial-grade capacitive touch screen.

**Heads-up viewing angle** – The upright screen position encourages correct posture while working out. The user is able to keep their head, neck and shoulders in an upright and natural position, making the exercise experience more comfortable and effective.

**Featured workout** – Users are encouraged to try more variety in their workouts, as the 880 Line promotes new workouts on a daily basis.

**Mobile Device Charger** – The 880 line console now features a mobile device charger enabling exercisers to charge mobile phones including those running Android™, Apple®, BlackBerry™ and Windows® operating systems, and small MP3 players. It will also provide charging to tablets and electronic book readers.

**Customizable screen** – Users can customize a variety of aspects of their workout, including preferred entertainment options.

**Motion Controls** – Large and responsive controls are independent of the touch screen, enabling users to alter the motion and resistance of their workout with ease.

## Experience™ Series – 880 Line

### **AMT® 885 with Open Stride™ Adaptive Motion Trainer®**

- Adaptive stride length: 0 to 36 in (0 to 91 cm)
- Adjustable stride height: 6.8 to 10 in (17 to 25 cm)
- 12 workouts and 20 electronic readouts
- LxWxH: 80 x 35 x 73 in (203 x 89 x 186 cm)
- Weight: 422 lbs (191 kg)

### **EFX® 885 Elliptical Fitness Crosstrainer™**

- Converging CrossRamp®: adjustable ramp between 10 and 35°
- Total body workout and moving upper body handlebars
- 22 workouts and 18 electronic readouts
- LxWxH: 80 x 30 x 72 in (203 x 76 x 183 cm)
- Weight: 340 lbs (154 kg)

### **EFX® 883 Elliptical Fitness Crosstrainer™**

- Converging CrossRamp®: adjustable ramp between 10 and 35°
- Fixed upper body handlebars
- 22 workouts and 18 electronic readouts
- LxWxH: 80 x 30 x 72 in (203 x 76 x 183 cm)
- Weight: 340 lbs (154 kg)

**TRM 885**  
**Treadmill**

- Incline range: -3% decline to 15% incline
- Ground Effects® & Integrated Footplant Technology™
- Speed 0.5 - 16 mph (0.8 - 25.5 kph) + Auto Stop™
- 27 workouts and 20 electronic readouts
- LxWxH: 83 x 35 x 68.5 in (211 x 98 x 174 cm)
- Weight: 430 lbs (195 kg)

- Over-molded handlebars and improved saddle design
- Dual-sided pedals with integrated straps
- Simple single-handed seat adjustment
- 17 workouts and 18 electronic readouts
- LxWxH: 48 x 21 x 62 in (122 x 53 x 157 cm)
- Weight: 169 lbs (77 kg)

**RBK 885**  
**Recumbent Bike**

- Step-through design
- Ventilated, suspension-mounted air flex seat back
- Dual-sided pedals with integrated straps
- 17 workouts and 18 electronic readouts
- LxWxH: 67 x 23 x 54 in (170 x 58 x 136 cm)
- Weight: 219 lbs (99 kg)

## Experience™ Series 830 Line

Right from the start, you'll see that the form and function of the 830 Line console complements the 880 Line console, right down to the same easy-to-use motion controls. From there, the 830 Line console uses an LED-based display that focuses on the essential fitness stats and displays that keep members moving.

Add the optional Entertainment Cap to allow your exercisers to plug into the console with their headphones and listen to the audio stream from your facility's mounted televisions. Or add the 15" Personal Viewing System to give your members a personalized media experience right on the machine.

And, just as with all Experience™ Series cardio, the 830 Line features the same smooth, flowing, and precise cardio equipment from Precor.

### P30 console:

- Optional 800/900 MHz Entertainment Cap
- Optional 15" Personal Viewing System (PVS)

## Experience™ Series 810 Line

The exceptional feel of the Experience Series cardio continues, and covers all the essentials with the 810 Line. With the affordably priced 810 Line, you'll find the same high quality and reliability that Precor is known for, and the identical exercise experience as the top of the line.

An LED-based display clearly delivers the fundamental workout stats including calories burned, time remaining/elapsed, and distance. The latest standard feature on the 810 line console is a mobile device charger that enables exercisers to charge mobile phones including those that run Android™, Apple®, BlackBerry™ and Windows® operating systems, and small MP3 players. It will also provide charging to tablets and electronic book readers.

Whether on its own or alongside the rest of the Experience Series equipment, the 810 Line offers the essential features with a premium feel.

# Queenax™ Functional Training

Modular. Upgradable. Compatible. Adaptable. Flexible. Queenax™ is the world's most unique, modular functional and suspended bodyweight training that multiplies the training space within your facility.

## Queenax™ Functional Training

### THE ONE Self-Standing

- Dimensions (LxWxH):
  - Min. (3'1" x 2'10" x 8'7" / 94 x 86 x 285 cm)
  - Max. (depends on attachments)

### THE CORNER Compact Functionality

- Dimensions (LxWxH):
  - Min. (7'5" x 6'1" x 8'8" / 226 x 185 x 264 cm)
  - Max. (depends on attachments)

### WALL SOLUTIONS Preserve Open Floor Space

- Dimensions (LxWxH):
  - Min. (1'2" x 1'10" x 8'7" / 36 x 56 x 262 cm)
  - Max. (48'5" x 5'9" x 9'4" / 1476 x 175 x 285 cm)

### THE FORMAT Free-Standing Training Hub

- Dimensions (LxWxH):
  - Min. (14'9" x 5'9" x 9'4" / 450 x 175 x 285 cm)
  - Max. (24'7" x 10'8" x 9'4" / 749 x 325 x 285 cm)

### THE BRIDGE Dynamic Range of Training Environments

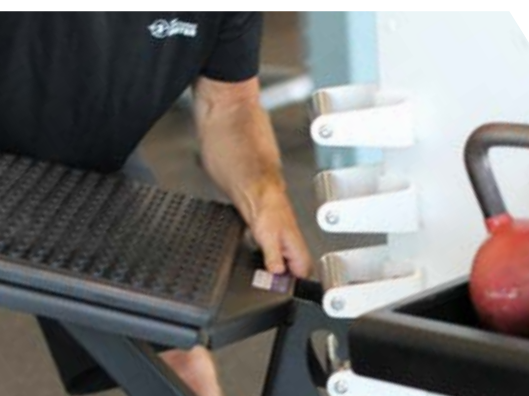

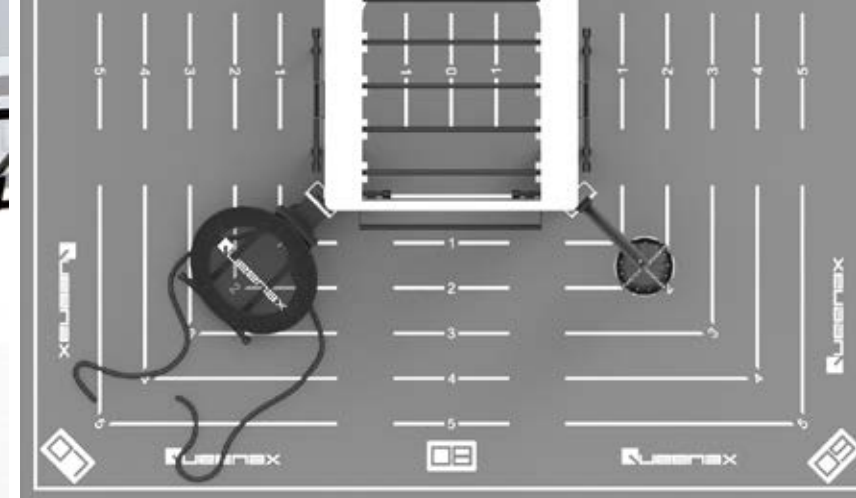

- Dimensions (LxWxH):
  - Min. (19'8" x 6'1" x 9'5" / 599 x 185 x 287 cm)
  - Max. (52'6" x 6'1" x 9'5" / 1600 x 185 x 287 cm)

The modularity of **Queenax** can multiply the space in your facility in a visually unique way, allowing you to tailor each unit to your training needs.

## Training Apps

The Training Apps are accessory items that either enhance the training experience like dumbbells and kettlebells, or an apparatus that affixes to the Training Bars or Wall Bars, allowing you to conduct group training classes like Superfunctional™, CrossCore®, and TRX®.

# Optionals

The Optionals are storage solutions, flooring, and accessory items, like plyometric platforms, rebounders, and torso trainers, which can be added to the frame of your Queenax in order to accommodate exercises or storage. They can be removable or permanently mounted to create additional training stations.

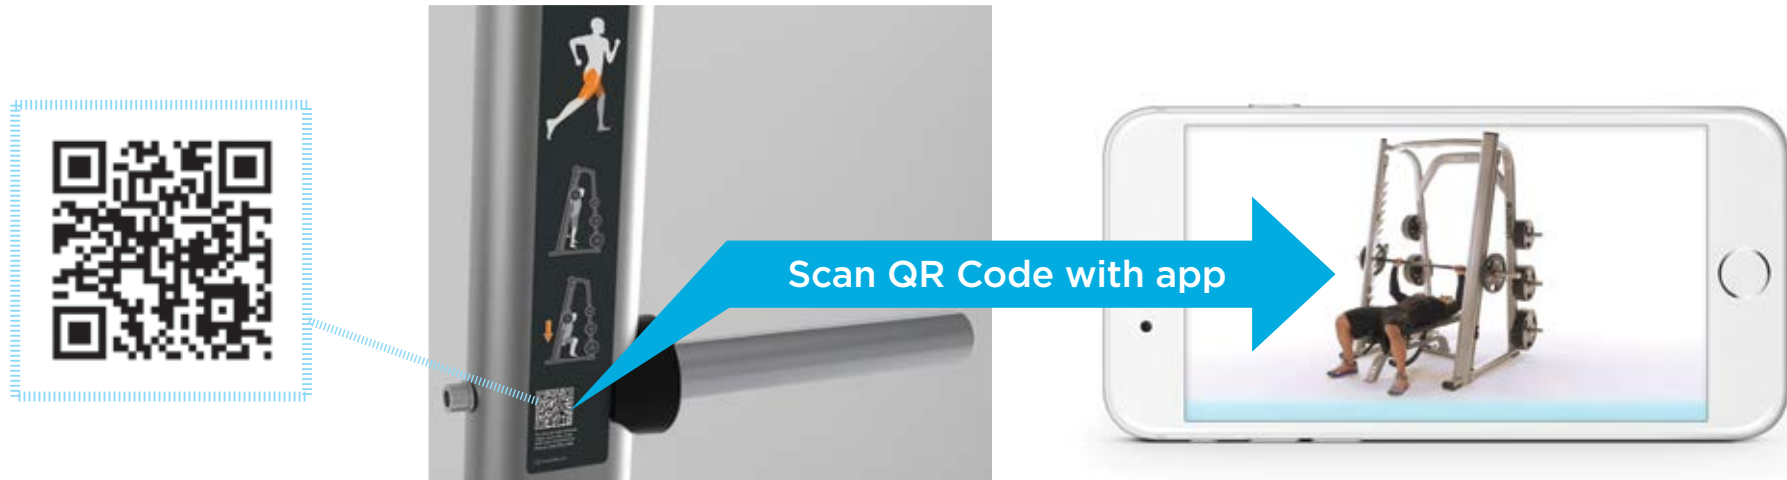

## Strength Equipment

We offer comprehensive ranges of strength equipment in a variety of color options that can complement any facility. With the same focus on ergonomics and smooth motion as our cardio equipment, our Discovery™ Series, Vitality™ Series and Icarian® strength lines offer something for every user.

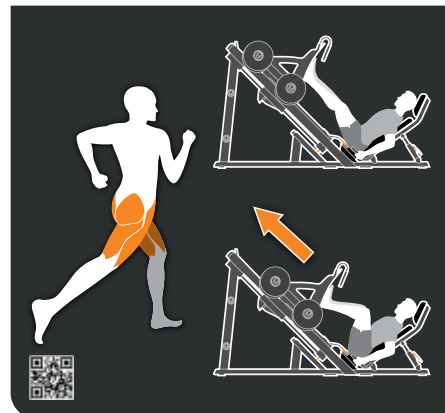

## Educational Video Links

## Strength Placards

Large, easy to see, text free illustrations demonstrate correct form and muscle usage at a glance, while **QR codes** provide smart phone links to instructional videos.

## Instructional Videos

## Discovery™ Series Selectorized Line

Both you and your exercisers will appreciate the combination of biomechanics and aesthetics of the Discovery™ Series Selectorized Line. It combines all the functional performance elements demanded from a strength line, along with the design and attention to detail you expect from Precor.

Key features of the Discovery™ Series Selectorized Line include:

- **Appearance** – Creates an open and inviting environment to everyone within the facility with a low-profile tower height and translucent shrouds.
- **Durability** – The 11-gauge steel and fully-welded boxed frame provides a rock solid foundation that will not bend, flex or creak under heavy loads or over time.
- **Precision Adjustments** – Highly visible and durable touch points including the industrial gas-assisted seat adjustments, over-molded rubber handles, selector pin, and add-on weight.
- **Ease of Use** – Large, text-free instructional placards with QR codes linked to instructional videos make getting started easy for all exercisers.

# Discovery™ Series Selectorized Line

**Instructional Placards** - Easy-to-understand, large illustrations that demonstrate correct form at a glance. QR codes provide exercisers with links to helpful instructional videos.

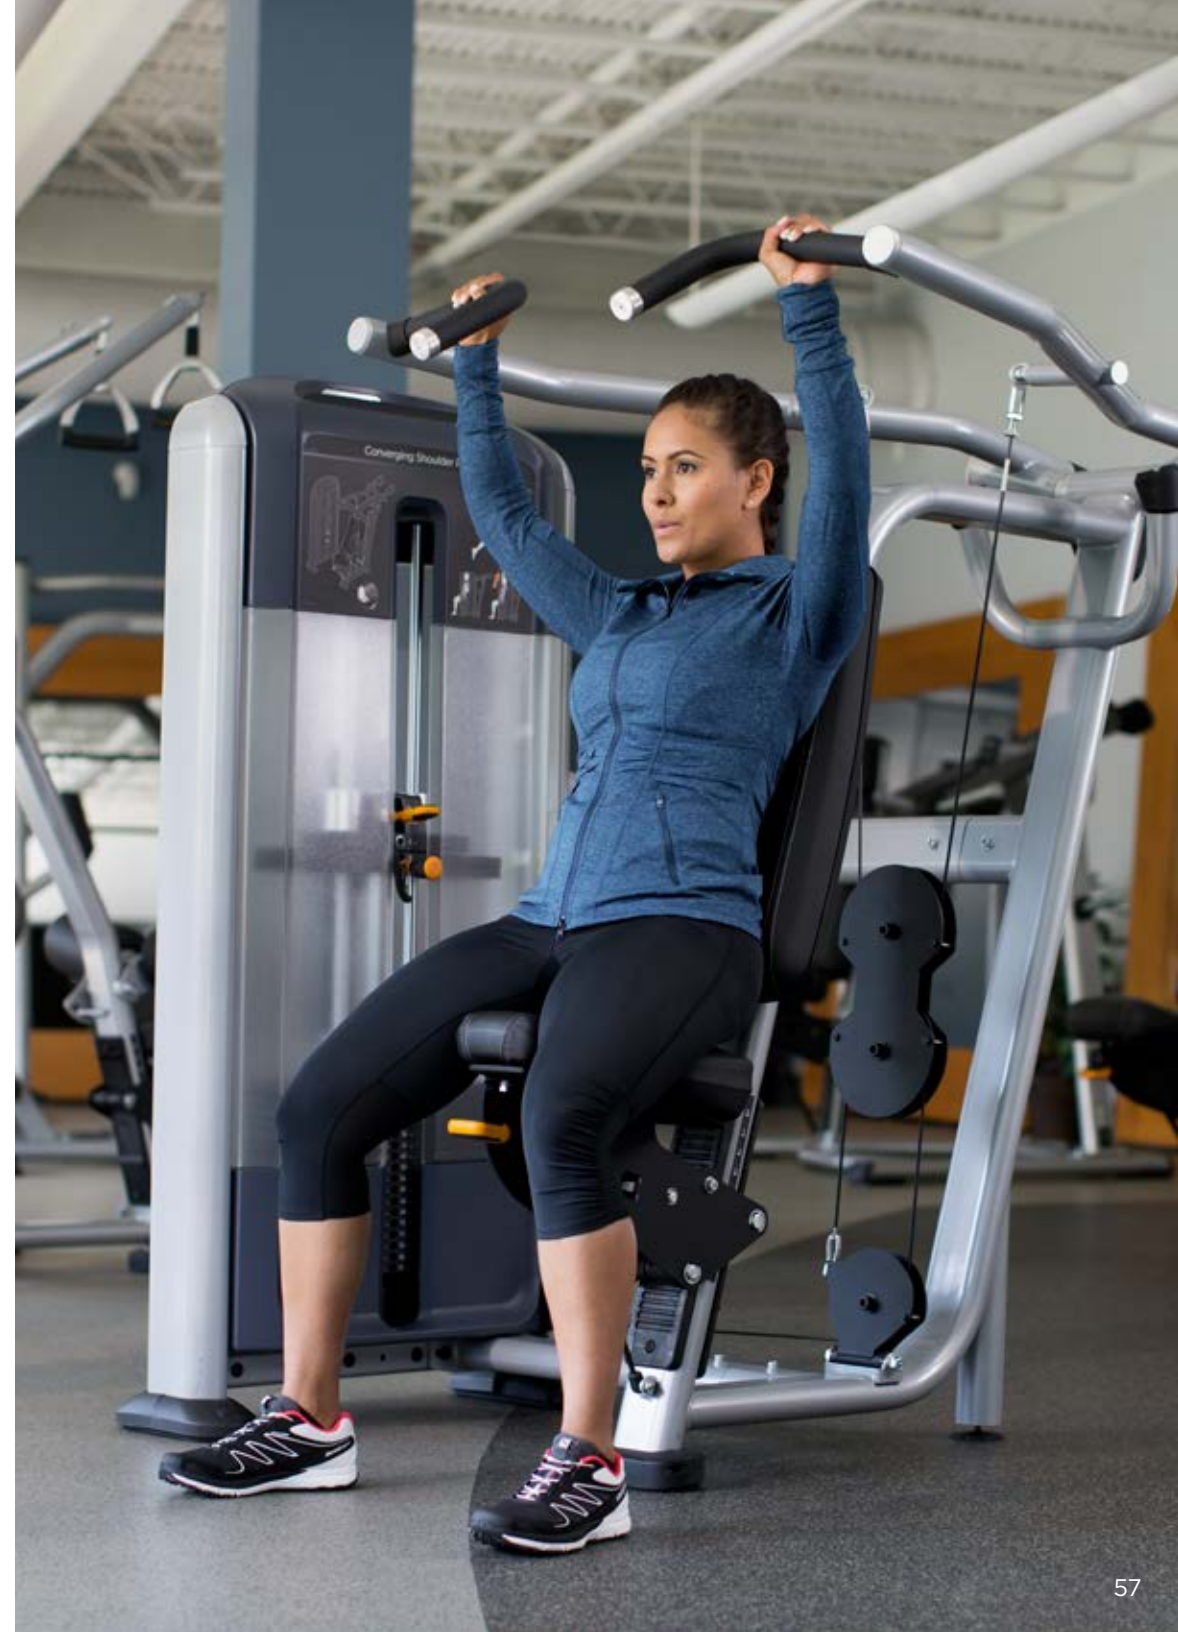

**Weight Tower** - The Line features a consistent low-profile tower height and a translucent shroud that create an open and inviting workout environment.

**Adjustments** - The highly durable, industrial-grade tactile materials make it easy and comfortable for exercisers to get the right fit, with precise adjustments for seats and weights.

**Upholstery** - Exercisers will be more comfortable thanks to the premium pads and upholstery - and you'll appreciate the two-textured fabric that features double-top stitching on all seams, for extra durability.

- Weight: 523 lbs (237 kg)
- Weight Stack: 200 lbs (91 kg)

# Discovery™ Series Selectorized Line Advanced Movement Design™

Your exercisers will experience greater strength through Advanced Movement Design, exclusive to the Discovery Series Selectorized Line.

This progressive platform challenges the body in a way that engages more muscles to functionally develop strength and stabilizes movement patterns. Exercisers will experience better results as they work their muscles through a greater, more natural range of motion.

Key features of the Advanced Movement Design within the Discovery Series Selectorized Line include:

- **Progressive Platform** - Natural step for exercisers as they build upon their strength routine with added variety and enhanced core stabilization.
- **Natural Movement**- The converging/diverging axis allows exercisers to move in a more natural movement pattern to provide greater range of motion and muscle recruitment.
- **Ergonomic Design** - Angled movement arms, ellipse-shaped handle grips, and an improved pulley system design ensures exercisers experience a smoother, more natural and fluid motion.
- **More Effective Workouts** - Independent movement arms demand greater balance and core muscle engagement from your exercisers.

**DSLO414**  
**Converging Chest Press**

- Dimensions (LxWxH):  
64 x 49 x 72 in (163 x 123 x 183 cm)
- Weight: 575 lbs (260 kg)
- Weight Stack: 240 lbs (109 kg)

**DSLO515**  
**Converging Shoulder Press**

- Dimensions (LxWxH):  
61 x 59 x 61 in (154 x 150 x 154 cm)
- Weight: 527 lbs (239 kg)
- Weight Stack: 200 lbs (91 kg)

**DSL0314**  
**Diverging Lat Pulldown**

- Dimensions (LxWxH):  
47 x 50 x 84 in (118 x 127 x 213 cm)
- Weight: 565 lbs (256 kg)
- Weight Stack: 240 lbs (109 kg)

**DSL0324**  
**Diverging Low Row**

- Dimensions (LxWxH):  
77 x 48 x 59 in (196 x 122 x 150 cm)
- Weight: 561 lbs (255 kg)
- Weight Stack: 240 lbs (109 kg)

## Discovery™ Series Plate Loaded Line

The Discovery™ Series Plate Loaded Line combines all of the functional performance elements demanded from a strength line but with the design and attention to detail that is the hallmark of Precor premium quality. The result is an exceptional experience for the first-time user and the seasoned athlete alike.

Key features of the Discovery™ Series Plate Loaded Line include:

- **Biomechanical excellence** – Resistance strength curves tailored to match the body's natural force curves.
- **Workout-enhancing design** - Independent arm resistance demands greater balance and core muscle engagement from the user, while the converging / diverging movement paths provide a greater range of motion and muscle recruitment.
- **Longevity** – Built to withstand the toughest commercial fitness environments.
- **Made for everyone** – Designed to suit a wide range of users, featuring elements such as easy load heights, low starting weights and ample plate storage.

## Discovery™ Series Plate Loaded Line

**Upholstery** – Premium pads and upholstery provides superior fit and control for the user, as well as enhanced strength and durability.

**Grips** – Ergonomic grips allow for maximum grip power and distribution of weight across the entire palm, for improved comfort and feel.

**Pivots** – Cast pivot housing adds strength and provides an enhanced finished appearance.

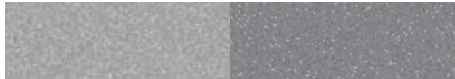

**Adjustments** – Precision adjustments, including highly durable industrial-grade seat adjustments and large, ergonomic rubber adjustment paddles.

## Vitality™ Series

The Vitality™ Series are compact, efficient units that can help you provide the variety users need while working within space and budget requirements.

To encourage comfortable and effective workouts, the range incorporates biomechanically correct and user-friendly design.

Key features of the Vitality™ Series include:

- **Natural Feel** – Sound biomechanics deliver a smooth, fluid motion that moves with the body and feels natural to the user.
- **Welcoming Design** – Translucent shrouds partially enclose weight stacks, creating a sense of privacy helpful to new users, while maintaining some openness throughout your facility.
- **Easy To Use** – Users will enjoy a walk-in design and a minimum number of necessary adjustments. Any required adjustments can be easily made from the seated position.

# Vitality™ Series

**Add-on Weight** - Each station features an add-on weight. Users can easily engage the add-on weight with a simple push of a lever.

**Compact** - The Vitality™ Series is designed with limited space in mind. All machines have a small footprint and a low profile design.

# Icarian® Benches & Racks

Keep even your most committed, knowledgeable and demanding users satisfied. Our complete line of benches and racks will meet their need and expectations of functional, stable, well-built equipment.

Available in the same comprehensive choice of colors as our strength lines, our benches and racks are sure to complement the look of your facility. Plus, all of our racks feature rubber-coated saddles to protect the finish on your dumbbells and barbells.

## Ab-X

With the Ab-X, users enjoy an efficient, well-designed solution with sound biomechanics built in. The unique “floating pivot point” design creates the ideal “crunch” movement while the contoured pads reduce stress to neck and shoulders.

## V-Crunch

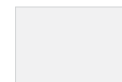

The V-Crunch gives your members a more comfortable way to perform leg lifts for core strengthening. Using the body’s own weight as leverage, the V-Crunch allows users to perform leg raises with resistance that’s less than their body weight.

### Ab-x and V-Crunch Colors Options

#### Frame
