

# THE GREATEST STRIDE SINCE THE ELLIPTICAL.

Something special happened 15 years ago. Precor released the first EFX® elliptical crosstrainer—and members everywhere completely changed the way they exercise. Now, they'll change it up again, the moment they step onto the new Experience Series™ cardio equipment from Precor. With a simple, intuitive interface that draws members deep into their workout, and a touchscreen console just like a high-end phone, it's a fitness solution that gets more powerful the longer you own it. It's something you really need to see for yourself. In fact, we'll bring one to you...
